

## Patients from all over the world

Visit us at our headquarters at Taunusstraße 13, Wiesbaden or at our branches and hospital-shops in the Rhine-Main-Area.

Patients not only from Germany and adjacent European countries but also from Arab countries, Russian-speaking areas, the USA, Africa and Asia contact us for professional support after illness or accidents.

During the time we need for planning and adjusting a prosthesis or any other sophisticated orthopedic aid many patients explore Wiesbaden and its surroundings.

They seize this opportunity to relax in one of our cooperating rehab clinics or to enjoy the multiple spa facilities Wiesbaden offers. We work together with all different kinds of medical specialists and jointly provide a wide range of preventive and diagnostic medical checkups.

Optimal health care depends on an ideal communication. So we consequently offer professional interpreting. If you are interested in using this service please let us know.

We would be glad about arranging interpreting services and making appointments for you so you can concentrate on the most important thing: getting well soon.

On demand we arrange your hotel-, rental car- and flight-bookings from Frankfurt Airport as well as an individual cultural programme for you and accompanying persons.
